

# SUN-**E**™ SYSTEMS UK

High quality mono-crystalline solar cells ensure high power output even on cloudy days, a long life and reliability. Anti-reflecting coating and toughened tempered glass increase the power output and mechanical strength of the solar module.

High quality EVA & DNP laminate to add strength and ensure water protection. Tough aluminium frame, mitre joints and pre-drilled for easy mounting. ISO 9001:2000, TUV and CE approved

5 year manufacture warranty.  
25 year power output guarantee @ 80%

## 80w Monocrystalline Solar Panel

**Model number: SES - 80/12**

Panel Size	541mm(w) x 1196mm(h) x 40mm(d)
Peak Power	80w
Open Circuit Voltage	21.9V
Short Circuit Current	5.07A
Max Power Voltage	17.5V
Max System Current	4.58A
Max System Voltage	700VDC
Number of Cells	36
